

Arabian Nights Game Information

Arabian Nights video slot is based on 'One Thousand and One Nights', a collection of Middle eastern folk tales.

The game is a 5-reel, 10-line, video slot featuring wild and scatter symbols, and free bonus spins from Net Entertainment.

Main Game Details

Before spinning the reels, players must select the coin value, number of bet lines, and bet level.

The coin value is 0.50. The minimum bet is 1 coin on one bet line, and maximum bet is 1 coin on all 10 bet lines (total 10 coins).

The Arabian Nights game is composed of three main areas - video display, keypad and game panel.

The **Video Display** or main game reel and Free spin reels are visible in the upper area and make up the majority of the screen. The **PAYTABLE** button and information for the maximum possible coin win are shown in this area.

The **Keypad** shows the current bet level (or the number of coins that the player bets per bet line). In addition, it also contains the current number of bet lines, the player's available coins and the recent coin value.

The **Game Panel**, situated at the very bottom of the screen houses the buttons for game settings such as audio, auto play menus and game rules. It also houses account information and switches between showing the play mode (whether Play or Fun modes), available cash, bet and amount won.

Game Actions

The buttons on the key pad perform the different game actions:

BET LINES	When the button is clicked the bet line counter increases by one and an additional bet line is highlighted. Players can also click a betline number to select the corresponding betlines.
BET LEVEL	This increased the bet level by one.
COIN VALUE	This increases the coin value.
MAX BET	When this button is selected, the bet level counter changes to 4, all bet lines are active and the game round starts.
	Starts a game round.

Game Rounds

Each game round starts when the player clicks the **SPIN** button. Consequently, the bet amount is debited from the current available coins and credit. The reels automatically come to rest.

When the G4 mode is disabled, the player can stop the reels by clicking the spin button a second time.

Game Results

Players have the opportunity to win on any of the bet lines on which they bet. Once the reels stop, the game highlights which lines are winners and how much the player wins on each line. The player's total winnings are summed together and shown in the **WIN** box. The amount won is displayed in the game panel and added to the player's cash.

Winning combinations of symbols are displayed in the Paytable available at the bottom left corner of the game screen.

Wild Substitutions

The Arabic man is a wild symbol and substitutes for any other symbol to complete a winning bet line or bet lines (except for scatters and Jackpot wins). Players' wins are doubled on bet lines with wild symbols.

Scatter Wins and Free Spins

The oil lamp is the scatter symbol. Wins with scatter symbols pay the multiplier (displayed in the paytable) multiplied by the total bet. Get 3 - 5 scatters award 15 free spins. During bonus spins, all wins are times 3, except for Jackpot wins.

When a player wins free spins, they must click the **START FREE SPINS** button to start the round.

Free spins are played automatically.

A dynamic display shows the number of spins remaining is displayed. A player can still win more free spins during free spins when 3 or more scatter symbols are displayed on a free spin, the spins won are automatically added to the running free spins.

The winning amount is automatically added to your account and displayed in the game panel and the Win display.

Jackpot

The Jackpot is won when the reels stop and there are 5 Arabic men (Wild symbol) on a bet line and on **MAX BET**.
