

Mega Joker Game Information

Mega Joker, a 2x3-reel, 5-line multiple coin slot machine, is an exciting new addition to Net Entertainment's roster of online traditional slot machines. The multiple coin slot game features a basic game, supermeter mode and progressive jackpot. The game offers players a maximum win of 2,000 coins (main game) and 2,000 coins (supermeter mode).

The jackpot has a starting amount of €2,000 and an average payout of €17,000.

The basic game, played on the lower reels, can be played at a bet of 1 or 10 using one of the selected coin values. Mystery wins are paid when a player gets 3 jokers on a betline. Wins at bet 1 are automatically collected, while wins at bet 10 are automatically transferred to the supermeter mode (played on the top reels)

The supermeter mode can be played at one of the 4 bet levels on all 5 betlines. Mystery wins are paid for jokers at bet of 100 and 200.

Players have the chance to win the randomly awarded progressive jackpot during basic mode.

Game Design

Basic and Supermeter modes - The basic game is played on the reels at the bottom of the machine, while the Supermeter game is played on the reels at the top. When the game has been idle for 30 seconds, the game elements light up to entice players to start playing.

Game panel - The game panel houses the account information and the buttons for the game settings menu, audio, and game rules. In the account information section, it alternates between showing the available cash, current bet and amount won, and player mode if player is in Play for Fun mode.

Main Game

Players can bet 1 or 10 coins in the main game (using one of the available coin values). At bet 1, one bet line is active and wins are automatically collected. At bet 10 (max bet), all 5 bet lines are active and players are automatically directed to Supermeter mode played at the top reels.

Basic Mode Play - Players start by selecting the coin value and the bet level.

For a bet of 1, players must click SPIN to start the reels spinning except when the player clicks MAX BET then the reels automatically start spinning. The amount bet is debited from the player's available coins and cash. The reels automatically come to rest. Alternatively, the reels can be stopped by clicking the spin button a second time (for G4 mode disabled only). Winning betlines are highlighted when players win and the LED panel displays the cumulative winnings for the game round.

Maximum bet - The minimum bet is one coin on one bet line, and maximum bet is 10 coins on all 5 bet lines at 2 coins per line.

Basic Mode Payout - Players can win on any of the bet lines they bet on. At bet 1, wins are paid out according to the payable to the left of the bottom reels. At bet 10, wins are paid out according to the payable to the right of the bottom reels. The max win in the basic game is 2000 coins.

Supermeter Mode

Mega Joker features a Supermeter mode with higher stakes than the basic game. This round is played at the top reels. The maximum win is 2000 coins.

Supermeter mode

Supermeter Mode Entry - Whenever players win at max bet they are automatically transferred to the Supermeter mode. The amount won in the basic game is added to the Supermeter credit which is displayed at the top of the slot machine.

Supermeter Play - Play is at the same coin value as the game round that triggered the supermeter mode, there are 4 available bets: 20, 40, 100, and 200 coins. All five betlines are activated, regardless of bet.

The game automatically selects the highest possible bet, within the players' supermeter credits. Players can use the BET button to choose the bets available and select their preference. Players click SPIN to start the round. The reels automatically come to a stop or players can click SPIN to stop the reels. Players can click COLLECT, to end Supermeter mode and transfer the winnings to the players cash/coins.

Supermeter Mode Payout - Depending on the bet the player selected, supermeter wins are paid out according to the highlighted payable to the left or right of the supermeter reels.

Joker Mystery Win - At bet 100, a joker in the middle reel gives a mystery win between 100 and 2000 coins. At bet 200, one or more jokers in one or more reels gives a mystery win between 100 and 2000 coins. The game highlights winning betlines and the panel displays the cumulative win amount for the game round. Winnings are added to the Supermeter credit.

Progressive Jackpot

Mega Joker features a randomly drawn progressive jackpot. The current amount of the jackpot is shown in the jackpot area.

The value of the jackpot increases each time the basic game is played. The jackpot is triggered at random, and is added to the player's betline win. The estimated average jackpot payout is €17,000. The average number of rounds before fallout is 5,000,000 at bet 1, and 500,000 at bet 10.

When the jackpot is won, lights behind the logo and paytables flash with celebratory sounds and the Jackpot display area shows the jackpot win. On next spin, the jackpot counter is reset to the seed value (€2,000), and the jackpot begins all over again.
